AI Powered Biometric and Liveness Check

- Fast identity verification
- Protection against identity theft
- Verification with selfie
- Verification with NFC and realtime video call photos
- Liveness check
- Realtime and fast AI powered liveness check

NFC Verification

- NFC which means near field communication is a technology that enables devices to have contactless communication within a 5cm distance.
- The data inside the chip are digitally signed by the authorized offices of the identity issuer country. Additionally, this data is protected against copying.
- SCSoft conducts active and passive identity verification with NFC identity verification according to international standards and verifies whether the chip is valid and not copied.
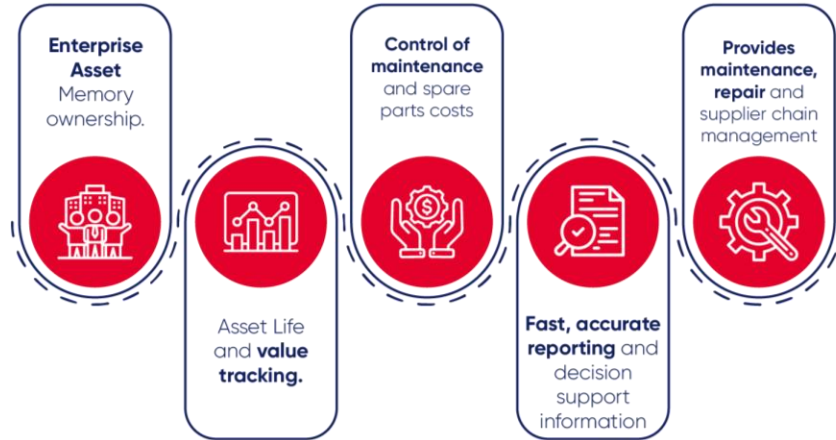

Video Call Center

- Web based modules compatible with SCSoft mobile SDK
- Maximize customer satisfaction with video calls Realtime ID Verification with call center agent Verify face biometrics during live call Anti ID Fraud
- Verify liveness check with artificial intelligence Anti ID Fraud
- Easy integration with Your system with Restful API

Fraud Prevention

- Instantly detect suspicious transactions with Artificial Intelligence-Based Fraud Analysis, which we developed to minimize fraud in financial transactions.
- Identify risks early by monitoring user actions in real time.
- Stop money laundering (AML) by protecting your customers and your business from fraudulent transactions.
- Manage cases caught in the rules engine via the Fraud Management Module.
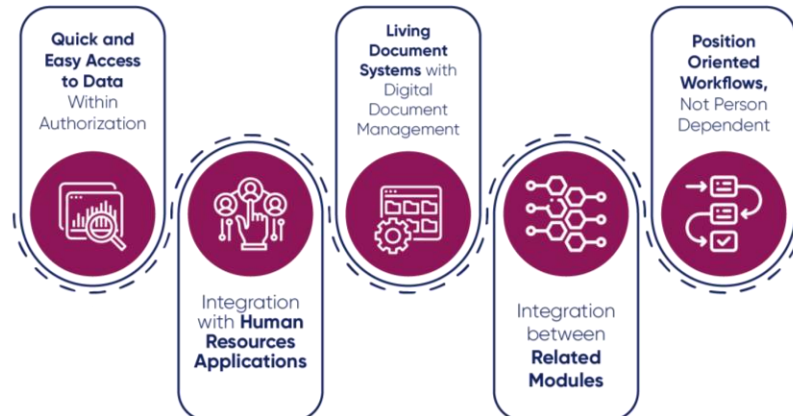

bimser

Seamless Connections

We open doors to countless opportunities by enabling you to effortlessly connect with industry leaders and like-minded peers through virtual events, forums, and personalized mentorship programs. Our vibrant professional communities and alumni network are here to guide you every step of the way.

Unique Journey

We understand that everyone's journey is unique, which is why we offer expert coaches and peer teaching as our second principle. Our platform provides personalized advice and support, helping you refine your resume, ace your interviews, and gain confidence in your career path. Additionally, our workshops and webinars, led by industry experts, keep you ahead of the curve.

Business-Focused Roadmaps

To truly unlock your potential, our third principle is customized and business-focused roadmaps. These roadmaps align with your goals, industry demands, and skill gaps. With milestone tracking, you can celebrate every achievement and stay motivated on your journey. Stay informed with the latest industry insights and trends, ensuring you're always one step ahead.

Practical Learning Environment

Our fourth principle is creating an interactive and practical learning environment. We offer a dynamic space filled with real-world tasks, assessments, and quizzes to test and reinforce your knowledge. Our social media integration allows you to share your successes, seek feedback, and showcase your work. With our AI guidance, you'll receive personalized recommendations and support tailored to your learning style and pace.
